**Subject: Application for study at half pay.**

Mr.

My humble submission is that I am a regular student in the law department of your organization. My father is the only earner in our family. He is currently unable to support my family for his illness (cancer). In this situation, it has become very difficult for my family to cover the entire cost of my education.

Therefore, I would like to appeal to you to give me half of my tuition fees. I will be eternally grateful to you for giving me the opportunity to continue my studies.

Petitioner

Your very compulsive student
